

11-19-11

Please note: Checks 222 and 223 have been voided due to errors in writing the checks.

In addition, there is a break in check numbers. Checks were written through check number 180 and then resume at check number 221 during this reporting period. There have been no checks written for checks number 181 through 220 in recent years. It appears that checks were written out of sequence years ago leaving the break in the check numbers during this reporting period.
