

### **Accompanying Letter of Explanation – January 17, 2013**

To Whom It May Concern:

In January 2011, my campaign committee (KAMBON.EDU) checking account with located at Chase bank. The account number is 00000799913025. According to the bank statement the account balance in January 2011 was **\$417.77**. \*Please note the 2012 report ended with **\$408.89**.) I am unable to find the cause of the discrepancy of **\$8.88**)

The treasurer at that time did not make me aware that a minimum balance of \$5,000 was needed to avoid a monthly bank fee. Since the account did not have a minimum balance of \$5,000, the bank began deducting a service fee of \$12.00 each month. The bank continued to deduct \$12.00 until June 2011, when I closed the account. The total amount deducted by Chase was \$60.00. In addition, a monthly fee of \$35.00 was deducted by Constant Contact. The total amount deducted by Constant Contact was \$210.00. Finally, \$16.61 was automatically deducted by Godaddy.com.

The total amount deducted by the three entities was \$286.61. As stated earlier, I closed the account on June 25, 2011. The balance at closing was **\$131.16**. That cash amount was given to me in a sealed envelope. I did not do anything with that amount until we reopened a new account in October of 2012. (Please see attached receipts)

I have completed and attached the appropriate campaign finance forms for 2011 and corresponding bank statements.

**I am truly sorry for the delay.**

Sincerely,

Hanifah Kambon
